# Company Profile

## FROM COLLABORATION TO DOTCOLAB

2017, one man's dream became a reality. Hano Breytenbach, a young entrepreneur with a passion for data and business processes, was ready to take the next step in his career: he wanted to create a company that not only believed in partnering with businesses to provide the best financial and business process management solutions possible but also focused on building strong personal relationships with clients so they could be sure we were working together toward creating something amazing. A company that will help businesses succeed by providing them with the best solutions available on the market. A company that will become their client's trusted advisor and partner for life.

This dream was realised when the company opened for business in January 2017. After breaking barriers in the industry and growing to a point where our "tiny" business was acknowledged by our larger competitors, we're ready for the next step: global expansion! Watch this space and follow our journey as we go global.

**What makes us different** is that we're not just a team of experts in operations and finance. We're a team of experts in you. Our slogan isn't "Strength through Diversity" for no reason. The diversity of our team's abilities and experience allows us to leverage collective talents and knowledge. Our biggest asset is a team who understands how to grow your business. Our leadership team has a combined total of more than 56 years of experience in the financial and operational software industry, while our forward-thinking consulting and development teams have the diverse talents, skillsets, and knowledge needed to stay on top of ever-changing technology and market trends.

**We believe in** assisting organisations like yours run more efficiently and **we are fueled** by our passion to help our customers achieve maximum productivity in an increasingly competitive market.

# OUR LEADERSHIP TEAM

Allow us to introduce you to Hano, our accomplished Director of Operations, who brings over 13 years of experience in the industry of business process solutions. Hano's expertise lies in implementing, supporting, training, and developing business processes, and his exceptional interpersonal skills have helped him build strong relationships with his clients. As a result, Hano has established a loyal following of clients who trust him to provide them with the tools they need to grow their businesses. With his diverse knowledge of numerous industries, Hano has become a specialist in optimising business processes. He leverages his expertise to provide our clients with the best solutions that are designed to increase their bottom line.

HANO BREYTENBACH

Introducing our Sales Director, Ronél, who is a vital member of our headquarters team. With over 16 years of experience in sales, implementation, training, and support of ERP and business solutions, Ronél has her finger in just about every pie here. Ronél's passion for delivering exceptional client satisfaction has driven her career, and her track record speaks for itself.

Working with large corporations from various industries worldwide, she has successfully implemented ERP systems, earning her the reputation of a seasoned expert in her field. In other words, Ronél knows her stuff!

# Mission

Our mission at .CoLab is to empower businesses to tackle their most intricate business process challenges. We are passionate about building strong relationships with our clients, fostering an environment of mutual trust, and providing peace of mind to their staff and management.

By offering exceptional Financial and Business Process solutions and services, we aim to help businesses achieve operational excellence. Our team is dedicated to providing excellent solutions that allow businesses to manage their operations more effectively.

At .CoLab, we understand the importance of reliable and effective business solutions. Our mission is to help our clients streamline their operations, reduce costs, and improve their bottom line by offering top-quality financial and business process solutions. We are committed to helping businesses achieve their goals and succeed in an ever-evolving marketplace.

# Vision

At our core, we are a provider of business solutions that empower companies to achieve sustainable growth. We offer software, services, and consulting that enable businesses to operate more efficiently and effectively.

Our vision is to be the most innovative and distinctive business solutions provider, dedicated to supporting companies in achieving optimal business growth. As we strive to be the best in our field, we continually test and refine our processes, policies, and procedures to ensure we remain ready for any challenge that comes our way.

At our company, we are committed to our clients' success, and we believe that by leveraging our expertise and cutting-edge solutions, we can help them achieve their growth objectives. We work tirelessly to deliver unparalleled service and solutions, and we are passionate about empowering our clients to realise their full potential.

## Testimonial:

“CoLab changed the way we run our operations. We managed to automate our Internal Systems from traditional physical paperwork to Automated Business Processes with smart approvals and in-line with Kenac's Standard Operating Procedures. As a result, we have had a tremendous improvement in our procurement, claims processing and ETA management and real time reports. We look forward to the next Phase Implementation to start during Q1 - 2021.

”

LEEROY PIKE

Finance Manager, KENAC
